Delivering L.B. Foster innovation

Malibu - 31' x 26'
*Multiuser Restrooms with
Concession*

Pomona - 30' x 26'
*Multiuser Restrooms with
Concession*

> Simple to Install

Minimal site preparation is required and buildings can typically be in use on the day of installation.

> Ready to Use

Prefabricated and delivered complete and ready to use, including plumbing and electrical where applicable.

> Easy to Maintain

Interiors are designed to resist abusive wear and can be quickly cleaned with warm soapy water and a brush.

Keystone - 21' x 26'

Multisuser Restrooms with Concession

Fontana - 10' x 26'

Concession or Storage Building

CXT buildings are delivered to your site ready to use and require minimal site preparation. Our structures are manufactured with high-strength precast concrete floors, walls, and roofs and can withstand extreme conditions caused by flood, snow, wind, and zone-4 seismic loads.

Utilities are pre-wired, pre-plumbed, and tested before shipment to ensure local code requirements are met.

Water, sewage and electrical utility lines are stubbed up through the prepared base material to match up with the utility breakout within the floor of the chase area. Hook up of the utility lines can be completed in a matter of hours.

All utility lines are concealed within the chase/storage area for easy hook up and maintenance, and to reduce vandalism.
