

L. B. Foster Company Transit Products Division - Direct Fixation - Rail Fastener Model F51R4 & F51R0

The Model F51R4 & F51R0 Direct Fixation fasteners has been designed, tested and supplied to the Chicago Transit Authority. The F51R4 & F51R0 was designed and tested in 2019 and began supplying to Chicago Transit Authority in 2020. The Model F51R4 & F51R0 provides the following fundamental functions:

- Secures 115 RE rail to concrete track bed or wood ties at 1:40 cant for the F51R4 and zero cant for the F51R0
- Stabilizes vertical and lateral rail movement.
- Controls longitudinal rail movement.
- Provides track noise and vibration dampening.
- Electrically isolates rail from track bed.
- Incorporates a captive design.
- Utilizes Pandrol e-clips or PR clips in either right-hand or left-hand orientation.

Based on extensive laboratory testing, the Model F51R4 & F51R0 provides the following load environment and electrical characteristics:

- Vertical stiffness of approximately 175,000 pounds per inch deflection measured between 4,000 lb and 12,000 lb.
- Dynamic to static stiffness ratio less than 1.5 times static stiffness.

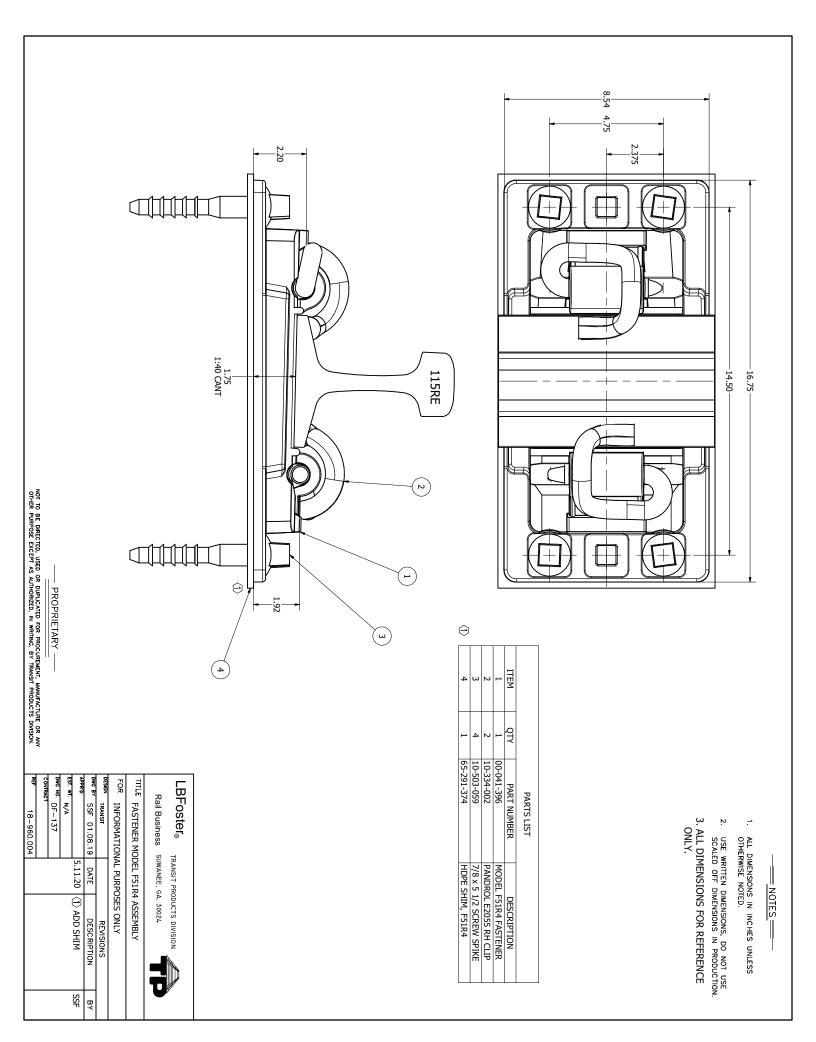

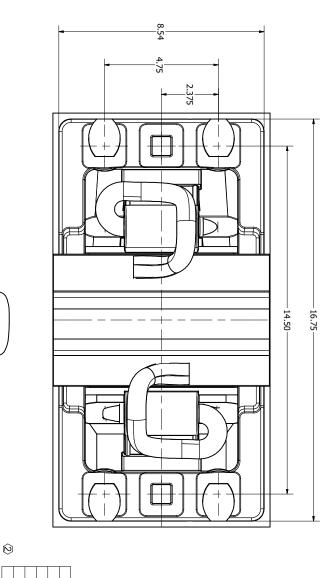

L. B. Foster Company Transit Products Division Direct Fixation Rail Fastener Model F51R4 & F51R0

- Applied vertical uplift forces of 2,000 pounds per fastener with upward deflection less than 5% of rail seat height.
- With vertical forces of 16,800 pounds and lateral forces of 4,000 pounds, the rail head movement is less than 0.125 inches.
- Nominal longitudinal rail slippage occurs at approximately 2,750 pounds.
- Withstands 15,000 volts dc without damage.
- Electrical resistance at 100 volts (dc) greater than 10 megohms (dry).
- Electrical impedance at 50 volts (ac), 10,000 Hertz, greater than 10,000 ohms.

The above performance characteristics are provided for informational purpose only and are based solely on previous testing. Actual performances may vary from those stated above.

Variations to Model F51R4 & F51R0 can be made to accommodate various custom requirements. For more information concerning this Direct Fixation Fastener model or other product needs, please contact us through www.lbfoster.com or call us in our Suwanee, Georgia office at (678) 926-5200.

3. ALL DIMENSIONS ARE FOR REFERENCE ONLY.

USE WRITTEN DIMENSIONS, DO NOT USE SCALED OFF DIMENSIONS IN PRODUCTION.

ALL DIMENSIONS IN INCHES UNLESS OTHERWISE NOTED.
