PROTECTIVE COATINGS CATALOG

PROTECTIVE COATINGS

L.B. Foster plays an integral role in many stages of the oil and gas industry, from the drilling and production market segment to transportation and refineries, as well as in distribution networks carrying hydrocarbon fluids and natural gas.

Our Tubular and Energy segment is focused on the safe deployment of tubulars for energy transport applications, and the critical measurement required for the transport of liquids and gases.

L.B. Foster's breadth of conversion services such as corrosion protection of pipelines, asset integrity services, and premium connections prepare tubulars for critical oil and gas transport applications across the entire energy delivery path.

In the form of both high-level production and custom application, L.B. Foster offers top of the line corrosion protection coatings, abrasion resistant overcoats and internal flow efficiency coating. We make use of the latest technologies while adhering to the most stringent specifications.

L.B. Foster's ability to provide services to long range oil and gas transmission projects coupled with short run custom applications that meet critical deadlines sets us apart in the coating industry.

9001: 2015 Registered

- EXPEDITED SHORT RUNS

CUSTOM QUALITY PIPELINE COATINGS

L.B. Foster's services are not just limited to straight line piping; we also offer coating solutions for risers, spool pieces, fittings and bends, with custom processes and a vast array of product applications.

L.B. Foster Protective Coatings Willis, TX facility provides versatility, speed, quality and experience to custom coating applications.

We offer a vast array of coating solutions to a wide range of products. Our conveniently located North Texas plant has the unique capability to coat 1/4 in. to 74 in. pipe, as well as induction bends, forged fittings, tees, pups and spool pieces, all on one site with numerous coating options.

The company's variety of solutions includes: **FBE, Specialty Polymer Coatings, Denso Protal, and Seal for Life Powercrete.**

At the heart of L.B. Foster's business philosophy is acute attention to customer service and quality. There is no job too small, or needed too quickly, for our Willis, TX operation.

EXPEDITED SHORT-RUNS

L.B. Foster strives to maintain the fastest turn times in the industry. The maturation of our Willis, TX operation has allowed us to serve our existing customer base in a new market segment, from planned long distance lines to quick turnarounds for more immediate construction projects.
